Summary

GRAPHS

1. Bar Chart : Comparing categories.

Bars with spaces

2. Circle Graph : Showing parts of a whole.

Slices add up to 100%

3. Double Bar Graph : Comparing two datasets side by side.

Two bars per category

4. Box Plot : Showing distribution & outliers.

Median, quartiles, whiskers

5. Histogram : Showing frequency distribution (continuous data)

Bars touch each other

6. Line Graph : Showing trends over time.

Points connected by lines

7. Line Plot : Showing frequency of small datasets.

Uses dots

8. Heatmap: Visualizing intensity in large datasets.

Uses colors

Here are the Graph Types :-
